

# Nordic-Gen4 Seminar

September 4–5, 2014 – Lappeenranta, Finland

## Information

The Nordic-Gen4 Seminar on Generation IV nuclear energy systems will take place at Lappeenranta University of Technology, Finland on September 4–5, 2014. The seminar gathers around researchers, postgraduate students and people working in the nuclear industry and the regulators in Finland and also from the Nordic Generation IV research network.

The seminar covers a wide range of Generation IV technologies with presentations on reactor concepts and research efforts, as well as research results. Those willing to give a presentation in the seminar should send an abstract of about 200 words by 30.7.2014. The seminar program includes also a visit to the thermal hydraulic test facilities at LUT. There will also be an evening program with dinner on September 4.

The seminar room will be the auditorium number 1304, which lies at a central location in the first building phase of the University. The seminar starts on Thursday at 9 a.m. and will be finished by Friday afternoon. The detailed seminar schedule will be announced later, after all the presentations are confirmed.

## Important dates

- Abstract final deadline 30.7.2014
- Submit presentations 15.8.2014
- Registration 15.8.2014

For registration and submissions, please contact Mr Joonas Telkkä via e-mail: [joonas.telkka@lut.fi](mailto:joonas.telkka@lut.fi). To register, provide your contact information with full name, e-mail address and organization. Please mention also if you have some dietary requirements.

To cover the costs, there will be a registration fee of 250 € (for students 100 €) for the seminar. The fee includes lunch and coffee on both days, the dinner on September 4, and the seminar materials. Instructions regarding the registration fee will be given later.
